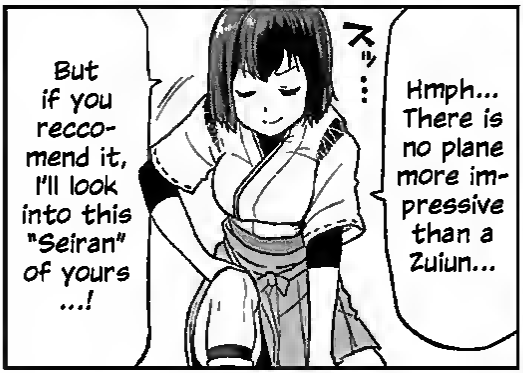
When I saw it, I thought it was really cool~ I'm sure it'll surprise even you, Hyuuga!
Speaking of seaplanes, how about that submarine girl Shioi's Seiran?

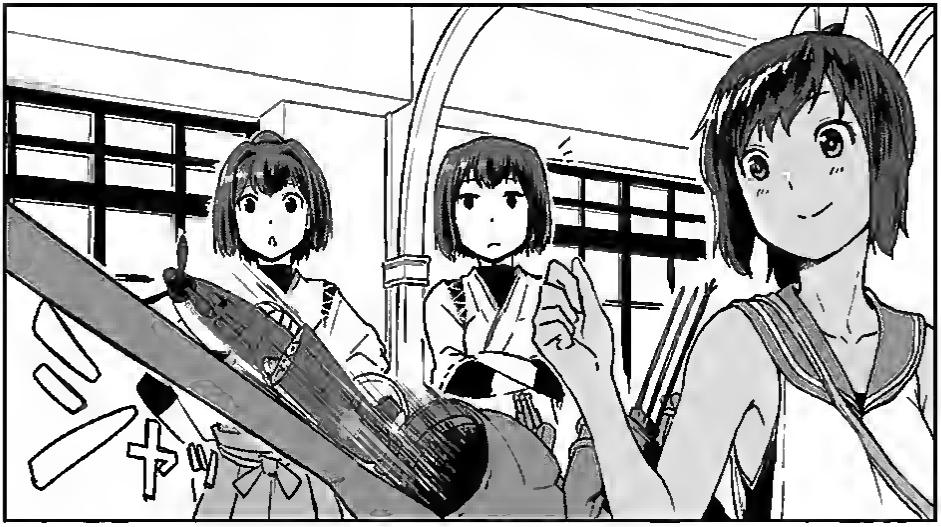
It's getting worse by the minute...
Fufu... Even among all seaplanes, the Zuiun is clearly the most beautiful...
ウットリ…



But if you recommend it, I'll look into this "Seiran" of yours ...!
スッ…
Hmph... There is no plane more impressive than a Zuiun...

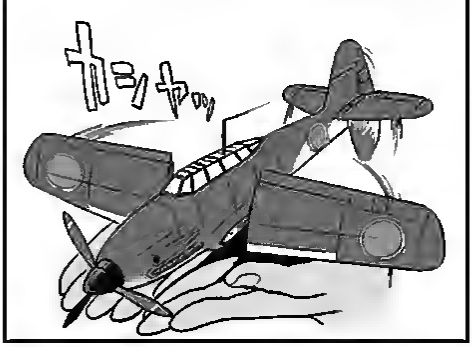
Well, I guess I can let you~ Only for a little though, OK~?

You want to see my Seiran-san?
What ...!?

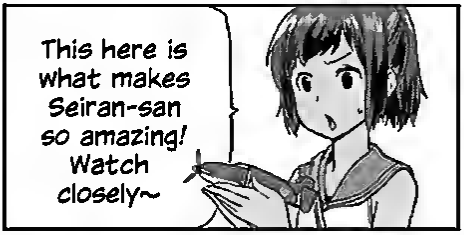


R-Rude ...!
Hey now, the wings are broken... You should take proper care of it, the poor thing.

Let's see... Hm?
This is Seiran-san!

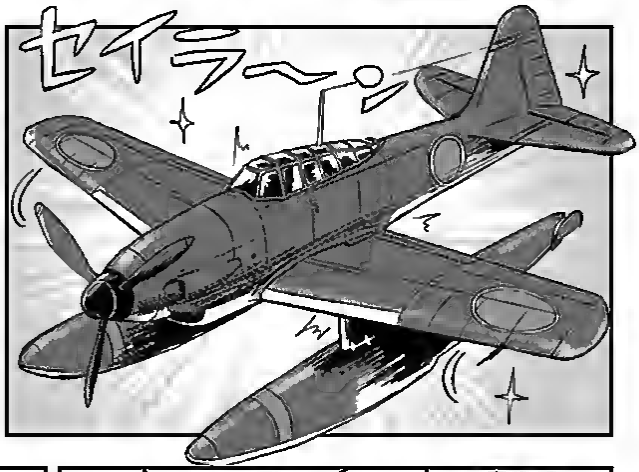


カシャッ



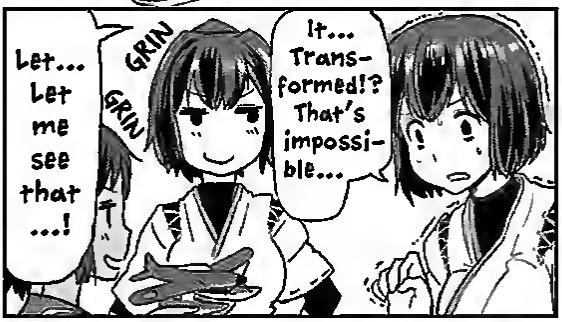
This here is what makes Seiran-san so amazing! Watch closely~

!?



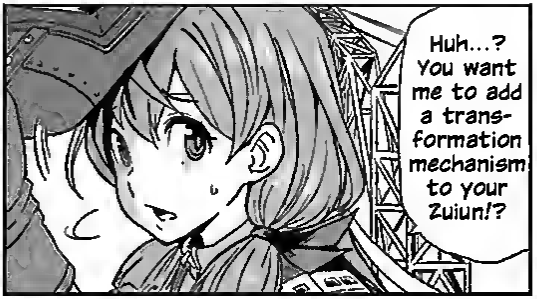
セイラーン

Wha- Hey!! I didn't say you could take Seiran-san with you~!!
Hm ...
スタ
スタ…

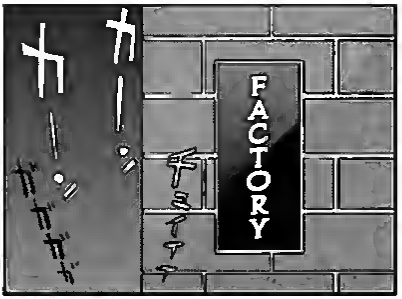


Let... Let me see that ...!
GRIN
GRIN
It... Trans-formed!? That's impossi-ble...

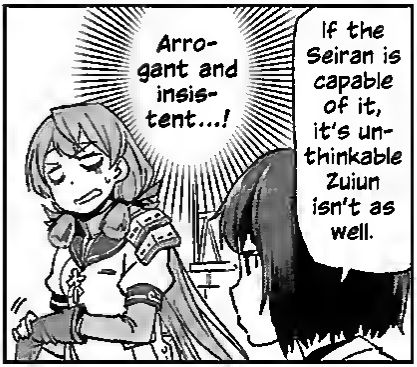
Hm ...
So it turns like this here, and... Hmm...
くいっ



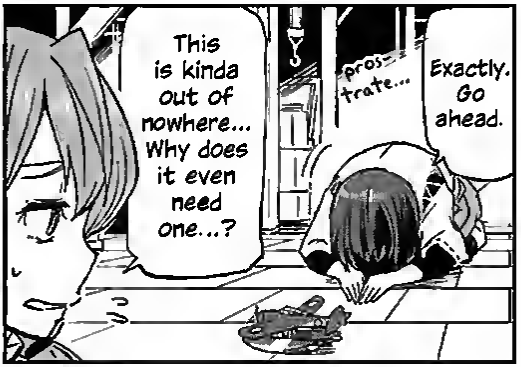
Huh...? You want me to add a transformation mechanism to your Zuiun!?



FACTORY



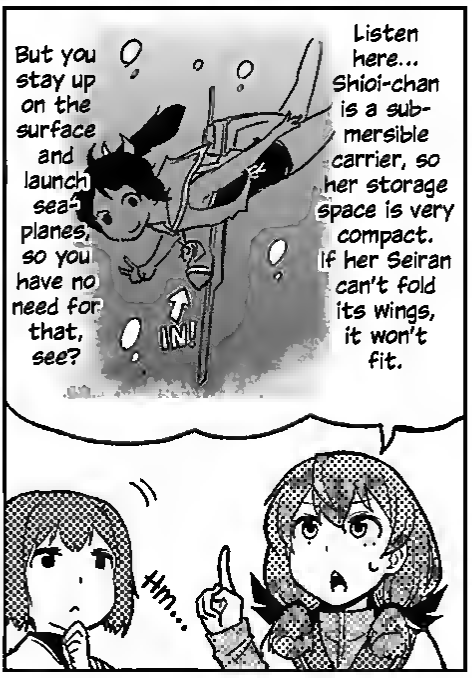
Arrogant and insistent...!
If the Seiran is capable of it, it's unthinkable Zuiun isn't as well.



This is kinda out of nowhere... Why does it even need one...?
prostrate...
Exactly. Go ahead.

Essentially,
You raise a good point...

Help me out here, Ooyodo ~!!
You still aren't getting it~!!
I need to become a submarine as well!
ヌギッ
かうひ



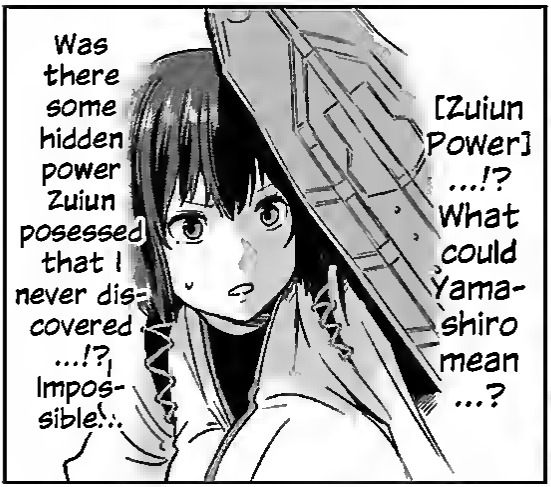
But you stay up on the surface and launch seaplanes, so you have no need for that, see?
IN!
Listen here... Shioi-chan is a submersible carrier, so her storage space is very compact. If her Seiran can't fold its wings, it won't fit.
Hm...

Eh hhh ...?
As fellow aviation battleships, can't you help Hyuuga come to her senses?
Pleee-ease ~!?
How can a plane mean that much to some-body...!?
Hyuuga is having an existential crisis now that her idea of Zuiun's absolute superiority is crumbling...
Soon will come the age of the sum-mersible aviation battle-ship
Hyuuga is the type who can't accept defeat; I'm sure it will work!
Will that really work, Nee-sama ...?
Ehh ...?
?
Yama-shiro? I have a good idea ...!
How are we even sup-posed to help ...?
Hyuuga! By the hands of this Zuiun, you'll meet your maker!
Ya-ma-shi-ro?
W... What are you saying ...?
For Zuiun to transform when launching... Some sort of coupling, perhaps... Hmm...
!

Take flight, [Zuiun Model 12]!!

You fool...! You can't draw upon your mighty [Zuiun Power] at all, can you!?

チュイン チュイン
ババ..
...!? What's come over you, Yamashiro!?



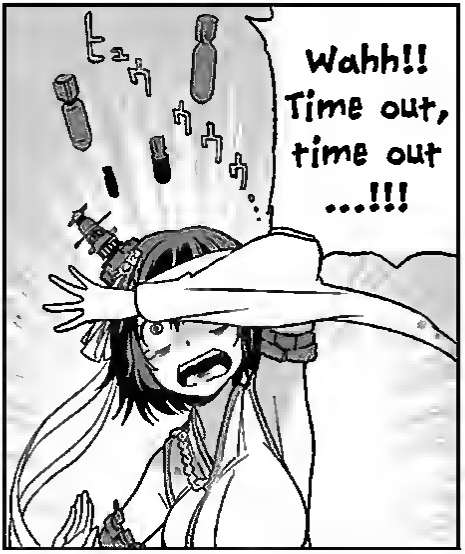
Was there some hidden power Zuiun posessed that I never discovered ...!? Impossible...
[Zuiun Power] ...!? What could Yamashiro mean ...?

Nee-sama... What the hell is [Zuiun Power] ...!?
You call yourself a BBV when you refuse to believe in the might of the Zuiun? Say your last words, Hyuuga!!
ズィィィン

Not yet! My Zuiun aren't so easily beaten! Behold, my [Zuiun 634 Air Group]!!
That's right, with Zuiun, anything is...!
...But it is possible!

No, wait, seriously ...!?
Eh ...!?

ドォ
ッ!!
ッ...



ヒュウウウ...
Wahh!! Time out, time out ...!!!

The might of the Zuiun is truly unmatched!
You have my thanks, Yamashiro. My eyes have been opened.
For that is the Way of the Zuiun!!
WAY OF THE ZUIUN
I am an aviation battleship... For as long as I draw breath, I swear to fight by their side!
Maaan~ thanks! You really helped out~!
Though I guess I should be apologizing, really...
You did a good job though, Yamashiro ...!
Way of the what...? Why did I get dragged into this...!?
